

IMPLEMENTATION

- Angular 8 front end based on Angular Material components for an enhanced user experience and professional look and feel for the application
- Responsive layout that looks great on mobile
- Tested on the latest version of Chrome
- Node.js, the choice of server-side language, results in consistency as JavaScript is being used for both the client and server
- User authentication for adding/removing favourite movies
- JWT based authentication, user remains logged in for 1 hour
- No page reloads and user redirection upon accessing wrong URLs
- Inject Angular services into components used for making HTTP requests
- Display snackbar messages on the front end upon errors returned by the server
- Use express for Node.js to keep the code lean
- Stateless Node.js API, enabling future re-use for similar desktop/mobile applications to be developed
- Code re-use for the authentication component in Angular
- Enabled viewing movie trailers if one found inside the app.
- Hash passwords using bcrypt-js before storing in database for new user registration on the app.

TO DO

- Escape user input in Node.js script to prevent SQL injection, possible solution – Prepared statements
- Better error handling on both front-end and back-end, currently validation only present on the front-end
- Add richer information about the movies create a profile page for users to edit their information
- Use formal testing suites
- Add authentication guards in Angular to prevent access on unwanted pages
- Add authentication middleware in Node.js to validate token
- Separate server-side logic to controllers for maintainable code
- Restrict cross origin requests

Go to page 2 for demo screenshots.

DEMO

Home page listing all movies in the database:-

The screenshot shows a web browser window with the URL 'localhost:4200'. The page has a blue header with 'Home' on the left and 'Login/Register' on the right. Below the header is a section titled 'ALL MOVIES'. It displays four movie cards for 'The Avengers', 'Avengers: Infinity War', 'Avengers: Endgame', and 'Avengers: Age of Ultron'. Each card includes the movie title, IMDb rating, a poster image, a brief synopsis, a heart icon for favoriting, and a 'VIEW TRAILER' button.

Movie Title	IMDb Rating	Synopsis
The Avengers	8.0	Earth's mightiest heroes must come together and learn to fight as a team if they are going to stop the mischievous Loki and his alien army from enslaving humanity.
Avengers: Infinity War	8.5	The Avengers and their allies must be willing to sacrifice all in an attempt to defeat the powerful Thanos before his blitz of devastation and ruin puts an end to the universe.
Avengers: Endgame	8.6	After the devastating events of Avengers: Infinity War (2018), the universe is in ruins. With the help of remaining allies, the Avengers assemble once more in order to reverse Thanos' actions and restore balance to the universe.
Avengers: Age of Ultron	7.3	When Tony Stark and Bruce Banner try to jump-start a dormant peacekeeping program called Ultron, things go horribly wrong and it's up to Earth's mightiest heroes to stop the villainous Ultron from enacting his terrible plan.

Authentication popup upon clicking the heart (favourite) button:-

This screenshot shows the same Home page as before, but with an authentication popup displayed in the center. The popup has two tabs: 'LOGIN' and 'REGISTER'. It contains input fields for 'Email *' and 'Password *', a 'LOGIN' button, and a 'REGISTER' button. The background movie cards are dimmed.

LOGINREGISTER

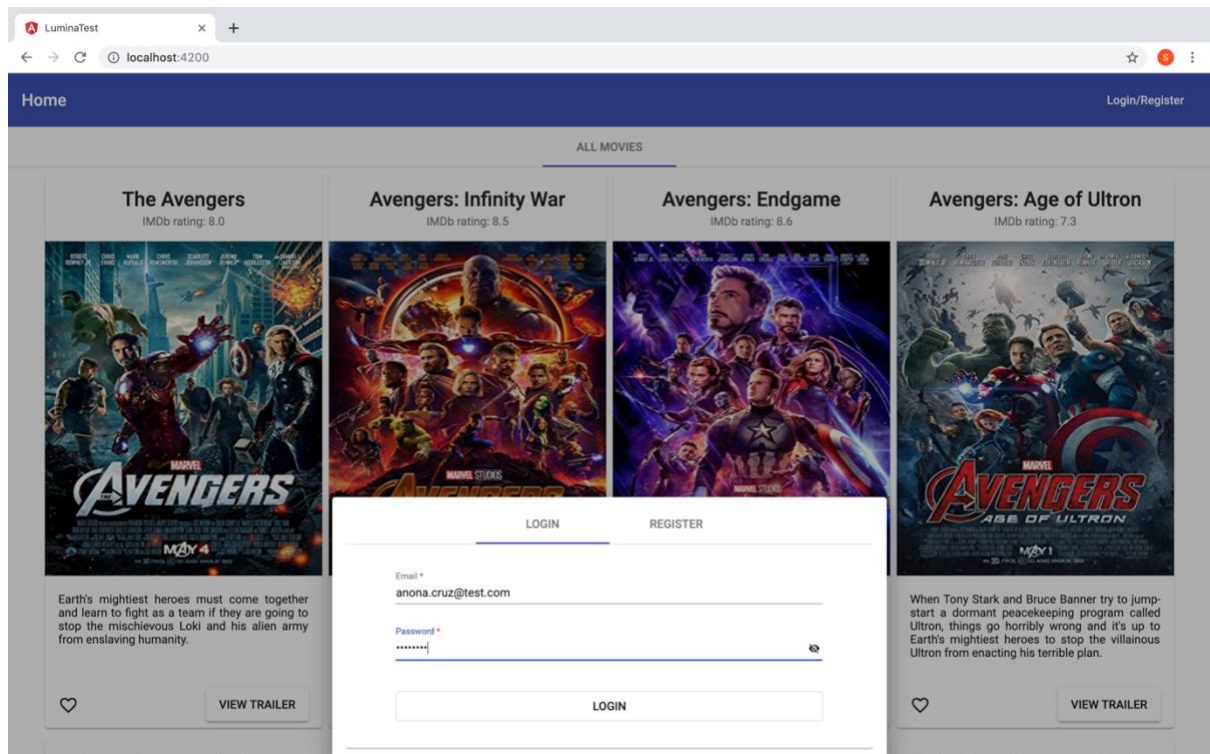

Email *

Password *

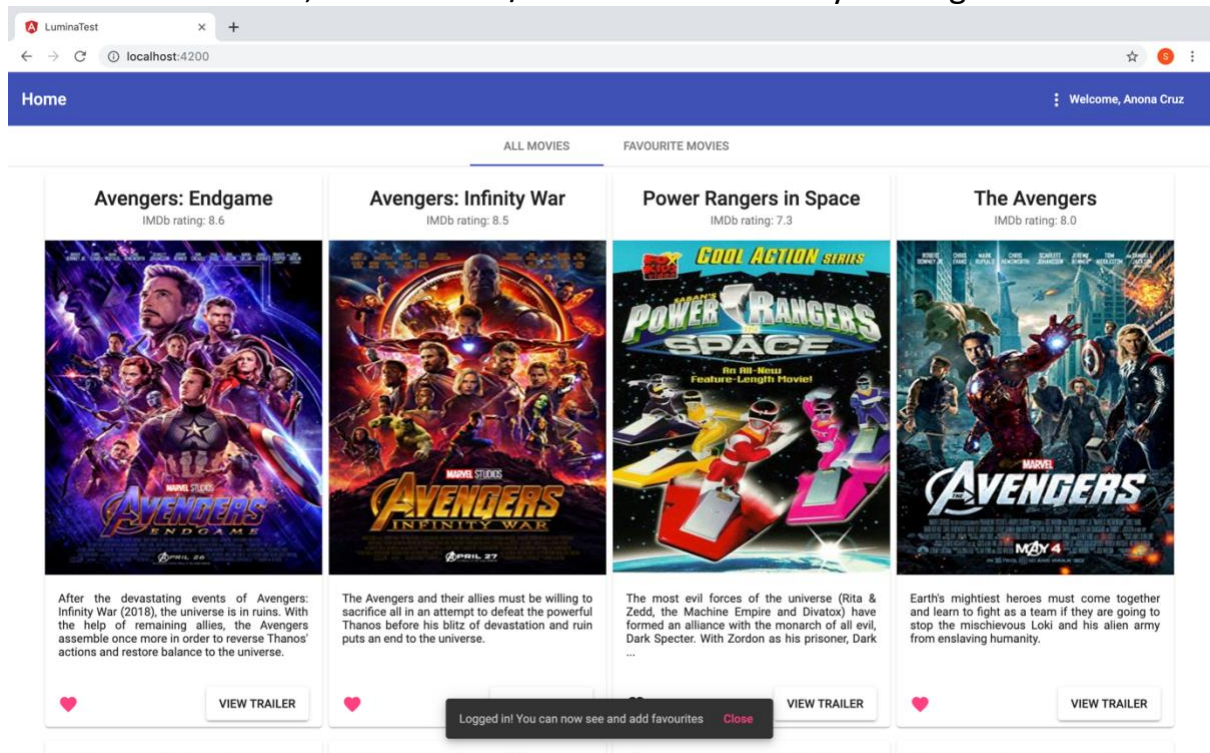

LOGIN

REGISTER

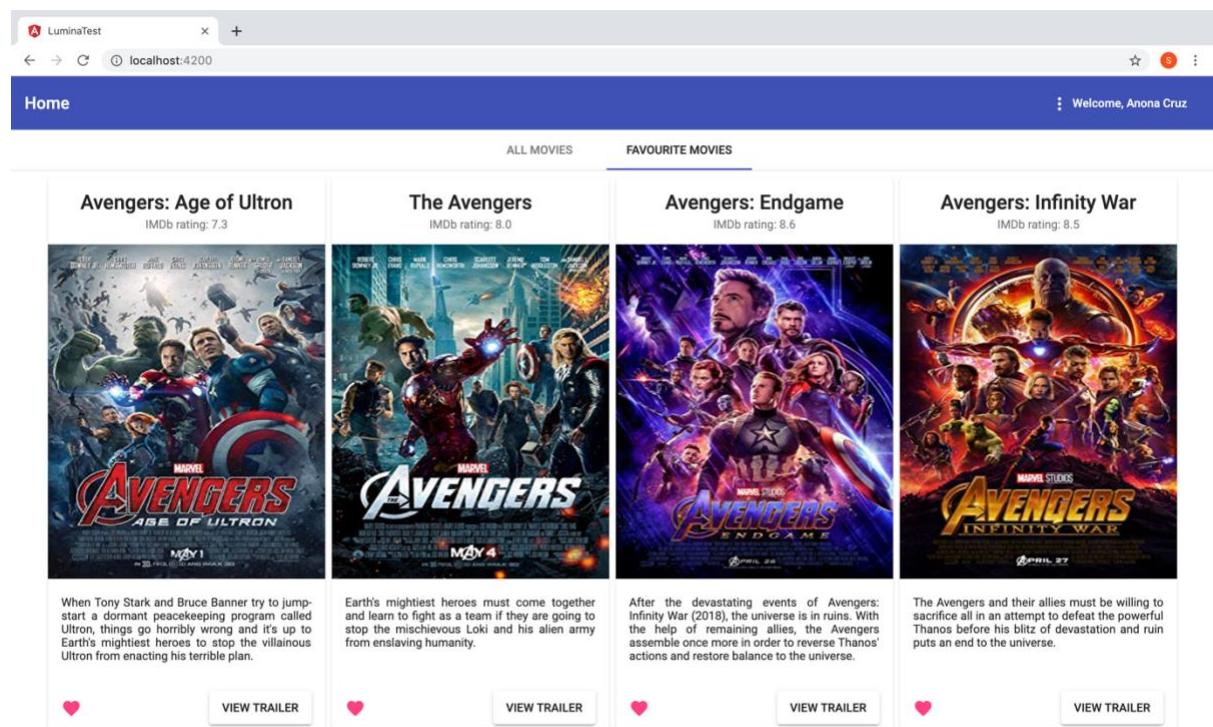

User authentication by filling in credentials for initial user email:
anona.cruz@test.com and password: password

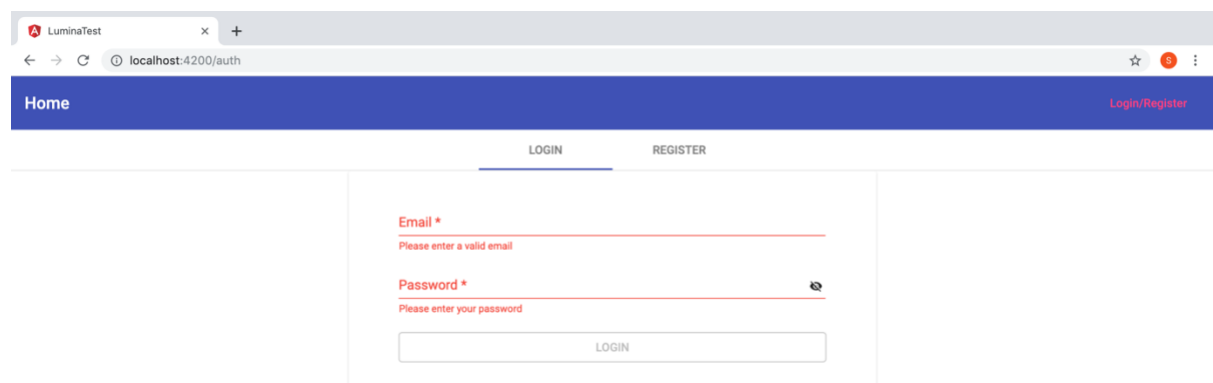

Authenticated user views the snackbar and can see favourite movies with a coloured heart icon, can also add/remove favourites by clicking on it:-

User switching to the Favourite Movies tab to view only the favourite movies:-

User authentication page can also be accessed directly from the link on Navigation bar:-

User registration screen for creating a new account:-

First Name *

Last Name *

Email *

Password * 0 / 25

REGISTER

Real time validation for user input and error alerts (see password):-

First Name * Sabhya

Last Name * Verma

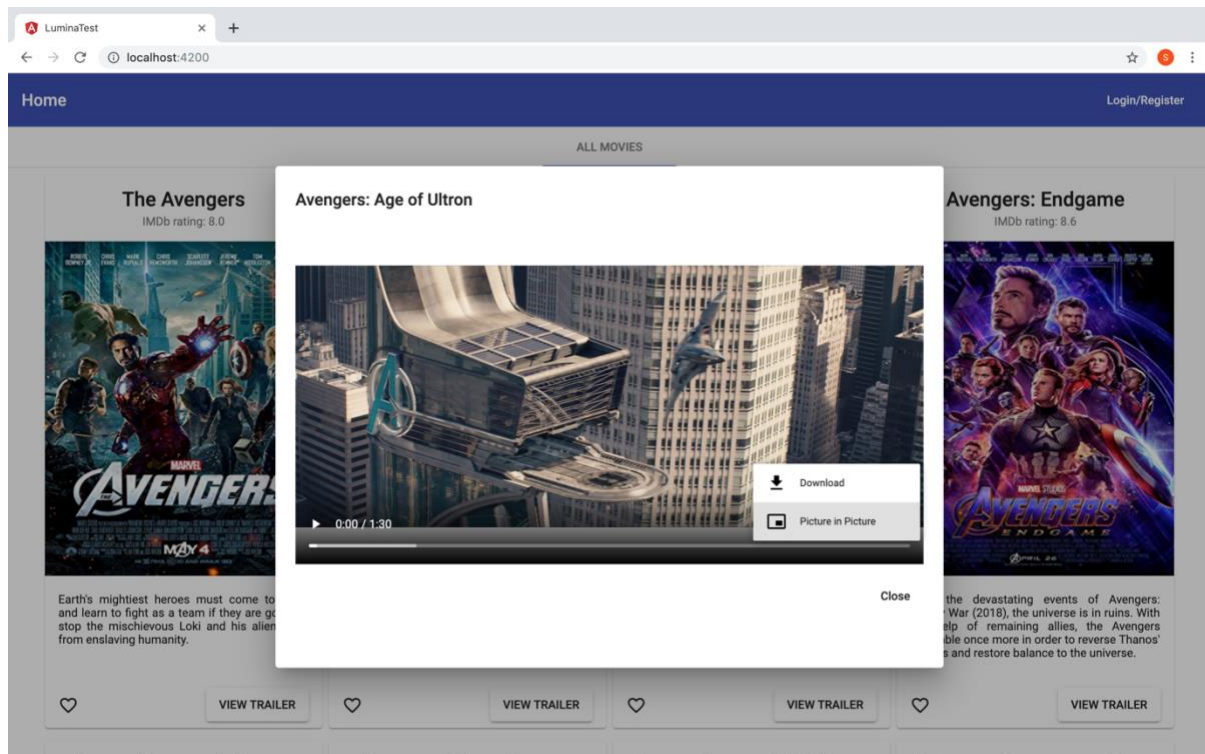

Email * sabhya.verma10@gmail.com

Password * 5 / 25
